

MATERIAL SAFETY DATA SHEET
May be used to comply with
OSHA's Hazard Communication Standard,
29 CFR 1910.1200. Standard must be
consulted for specific requirements

U.S. DEPARTMENT OF LABOR
Occupational Safety and Health Administration
(Non-Mandatory Form)
Form Approved
OMB No. 1218-0072

IDENTITY (As Used on Label and List) #2 WAX-TAPE	Note: Blank spaces are not permitted. If any item is not applicable, or no information is available, the space must be marked to indicate that.
--	---

Section I

Manufacturer's Name The Trenton Corporation	Emergency Telephone Number 734-424-3600
---	---

Address (Number, Street, City, State, and ZIP Code) 7700 Jackson Road	Telephone Number for Information 714-897-0700
---	---

Ann Arbor, Michigan 48103	Date Prepared April 3, 2005
----------------------------------	---------------------------------------

	Signature of Preparer (optional)
--	----------------------------------

Section II - Hazardous Ingredients/Identify Information

Hazardous Components (Specific Chemical Identity; Common Name(s)) OSHA PEL; ACGIH TLV; Other Limits Recommended; % (optional)

Mineral Spirits (Combustible) CAS # 64742-48-9

No other component is present at sufficient concentration to require a hazardous classification.

Section III - Physical/Chemical

Boiling Point 302°F - 309°F	Specific Gravity (H ₂ O = 1) Less than 1
Vapor Pressure (mm Hg.) @ 77°F less than 10	Pour Point of Wax Saturant 125°-135°F
Vapor Density (AIR = 1) Approximately 4.8	Evaporation Rate (Butyl Acetate = 1) Less than 1
Solubility in Water Negligible	

Appearance and Odor

Brown also available in Aluminum (#2A), White (#2W), Blue #2B, Green #2G, Red #2R, Yellow #2Y and other colors with mineral spirits odor

Section IV - Fire and Explosion Hazard Data

Flash Point (Method Used) Open cup 155°F	Flammable Limits in Air Estimated	LEL 0.6% Vol.	UEL 7.0% Vol.
--	---	-------------------------	-------------------------

Extinguishing Media

Carbon Dioxide, Foam, or Dry Chemical.

Special Fire Fighting Procedures

Treat the same as an oil fire.

Unusual Fire and Explosion Hazards

In the presence of strong oxidants and a source of ignition, burning can occur.

Section V - Reactivity Data

Stability	Unstable		Conditions to Avoid
	Stable	X	

Incompatibility (*Materials to Avoid*): **Avoid strong oxidants.**

Hazardous Decomposition or Byproducts

Burning will release hydrocarbon byproducts.

Hazardous Polymerization	May Occur		Conditions to Avoid
	Will Not Occur	X	

Section VI - Health Hazard Data

Route(s) of Entry:	Inhalation? Possible	Skin? Possible	Ingestion? Unlikely
--------------------	--------------------------------	--------------------------	-------------------------------

Health Hazards (*Acute and Chronic*)

Repeated skin contact may cause irritation or dermatitis (not regarded as irritant by OSHA). In a confined space, high vapor concentration may cause headaches, dizziness, or anesthesia.

Carcinogenicity:	NTP? Not Listed	IARC Monographs? Not Listed	OSHA Regulated? Not Regulated
------------------	---------------------------	---------------------------------------	---

Signs and Symptoms of Exposure

High vapor concentration may cause irritation to eyes and respiratory tract and may cause headaches, dizziness, or anesthesia.

Medical Conditions Generally Aggravated by Exposure **None Known**

Emergency and First Aid Procedures: **FIRST AID: INHALATION: If dizziness occurs, move to fresh air. SKIN: If reaction occurs, wash with soap and water. EYES: Water wash. INGESTION: Do not induce vomiting unless to prevent asphyxiation. Consult physician immediately...**

Section VII - Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled

Scrape up and clean any residue with petroleum solvents.

Waste Disposal Method

Dispose of wastes in accordance with all applicable landfill regulations.

Precautions to be Taken in Handling and Storing

Avoid open flame and store away from heat and oxidants.

Other Precautions

Contains petroleum distillates. Use with adequate ventilation.

Section VIII - Control Measures

Respiratory Protection (*Specify Type*)

Not required unless used in confined and enclosed area.

Ventilation	Local Exhaust Recommended in Enclosed Area	Special Not Required
	Mechanical (<i>General</i>) Should be Adequate	Other Not Required

Protective Gloves (**Recommended if allergic to hydrocarbons or mineral spirits**)

Eye Protection
Not Required

Other Protective Clothing or Equipment

None

Work/Hygienic Practices

General hygiene practices are adequate.
