VERSIL-PAK #4

FLEXIBLE, GREASEPROOF, WATERPROOF BARRIER MATERIAL

PRODUCT DESCRIPTION: VERSIL-PAK #4 IS A Medium mesh cotton fabric coated and Impregnated with a highly formulated high adhesion wax and Laminated to a top barrier polyester film.

VERSIL-PAK WRAPPER is used in the protection of under-Ground pipe of all sizes in combination with protective coating. Due to the flexibility, which allows effective application over Irregular surface, it is especially suited for hand application. A Protective coating is obtained that will provide long time service And is especially recommended for reconditioning work.

VERSIL-PAK is also recommended for the protection of Industrial plant piping where corrosive action is prevalent or where Conditions are extremely severe. This includes air lines, sprinkling System piping, cold water pipe and gas pipe.

PHYSICAL PROPERTIES:

<u>Method</u>	<u>Typical Values</u>	<u>Tappi Test</u>
<u>Average Weight (Lbs/Yd.squared)</u>	0.49	T-410
<u>Average Thickness (Mils)</u>	13	T-411
<u>Average Tensile Strength (Lbs/In.)</u>		T-404
Machine Direction	28	
Cross Machine Direction	19	
<u>Average Bursting Strength, Mullen (Psi)</u>	53	T-403
<u>Average Tear Strength, Elmendorf (Grams)</u>		T-414
Machine Direction	792	
Cross Machine Direction	1024	

Shelf Life

5 Years Minimum
